On Display at
Unified Wine Grape
Symposium
Sacramento
January 30-31

Designed specifically for North Coast Applications

"POWERING THE VINEYARD INDUSTRY"

RAINBOW

EXPERTS WITH A COMMITMENT TO QUALITY

State-of-the-art Standard Features

- Designed for narrow rows...minimum width of 41 inches.
- Precise applications – maximum coverage, minimum loss.
- Smooth 250-gallon tank. Minimizes crop damage.
- Hydraulic controls – great for operating sprayer from a cab.
- Special nozzles provide 10-300 gal/acres application rates.
- Dual stage agitation, reduces problems with foaming chemicals.
- Adjustable axles for maximum stability.
- Clean water tank for safe in-field maintenance.
- Direct gearbox drive; lower maintenance, higher dependability.
- Hardi® diaphragm pump. Ceramic hollow cone nozzles.

Option Features

- Unit pictured with optional multi-row boom – add \$2995.
- Turnable hitch with constant velocity PTO shaft.

\$8990*

*Introductory price, plus freight, set-up, and 2.25% California sales tax. Basic sprayer only.
Multi-row system (pictured) extra. Price subject to change as new design features are added.
